JOSIAH TURNER, Jr., EDITOR.

HORRORS OF THE INDIANAPOLIS DISASTER.

The mails bring the details of the terrible effects of the explosion of a boiler in the midst of a crowd of men, women and children, at the State Fair at Indianapolis, Ind., on Friday of last week. It seems to be established that the cause of the explosion was that there was but little water in the boiler and the flues were greatly heated. The scenes that followed the explosion were terrible. Where the engine stood there was no perceptible trace except an area of smoked blackened ground. The Indianapolis Journal says:

To attempt to pen a picture of the scene were folly. Imagine fifteen thousand people, pallid with fear, rushing and crushing to and fro, impelled by a mad de something toward an undefinable object. Men bearing dead and wounded into the various halls, women shrieking and crying for fear their husbands, sons or brothers might be among the killed, strong men convulsed and in tears because temporarily separated from their wives and children, and in suspense as to their safety. A large piece of the boiler, which must have weighed five hundred pounds, was carried to a distance of a hundred yards. One smaller piece was thrown clear into the time track, and skipping over it buried itself in the sod beyond. Another large piece was thrown via ward, clear over the dyke upon the cattle pen. In almost every direction smaller pieces of the machinery were thrown, and the air was literally full of splinters, bolts, screws, nuts, pieces of rods, and such of the lighter portions of the engine. Innumerable are the stories told of how deadly missiles alighted just in front of the people, arrested by a gracious Providence in their deadly flight. The following are among the horrible incidents of the catastrophe:

A man walking in front of the executive headquarters was startled at seeing the skull of a man drop in front of him, the flesh actually scalded off the bones, but the eyes and teeth still remaining in their sockets and jaws.

Several yards from the disaster was found a pair of legs held together by the merest shred of flesh. At one place was the headless trunk of a man; at another was the leg of a woman, with her boot and stocking and a part of her drawers still upon it; the arm of a man was driven into a poplar board; while not far from Power Hall was seen the body of a man so horribly mutilated that his heart, stomach, liver and lungs could readily be seen. When first discovered, his heart was still palpitating, and the motion of the organ was plainly observed.

In the Agricultural Hall were lying four bodies, a jumbled, almost unrecognizable mass of charred, roasted and scalded humanity. Mr. John E. Foundary, with a friend, was sitting in a carriage on the east side of Power Hall. They both saw a piece of the boiler coming toward them, when Mr. Foundray's friend pushed him aside, and the deadly iron imbedded itself in the ground not three feet behind him — The scalp of a man was found near the stairway to the amphitheatre. A mother and three children were standing in a group near the boiler. The mother was instantly killed, and two of the children badly scalded. The third escaped uninjured. A gentleman and lady were walking by with locked arms. The gentleman was killed and the lady uninjured. Quite a number of persons were thrown to the ground with considerable force, many of whom were picked up in an insensible condition. A baby wagon was struck by a piece of the flying iron, and the wagon utterly demolished, but the child in it left unhurt.

A piece of the boiler was blown into the cattle shed two hundred yards, where it passed through the roof and knocked the tops off the horns of the mammoth ox, but doing him no other injury.

Mr. E. A. Vinton and his daughter were sitting in a buggy about fifty yards away, looking at the running of the mills, when a piece of the boiler struck the horse, killing him instantly and upsetting the buggy, throwing both of the occupants out, but doing them no serious harm.

A piece of a man's head, showing a part of the forehead, the nose and left side of the face, the hair and whiskers very black, slightly tinged with grey, was found near the executive office.

One of P. L. Davis' arms was blown over a hundred yards from the place where he fell dead. His body was otherwise terrible mutilated.

In a lumber pile, near the place where the boiler stood, were found some of the remains of a man literally wadded into the interstices between the planks. One woman, inquiring for her husband, asked one of the reporters if his name was upon the list of killed. It was, but the man could not summon the courage to tell the poor bereaved wife, and he put her off with an evasion.

At the undertaker's the scene was terribly. In the back yard and rear shops, upon rude planks and benches, were stretched the dead. The mutilations were fearful and cannot fitly be described. Blackened and begrimed, bloody and dusty, with protruding eyeballs, lolling tongues and clenched hands, the dead lay about but fearful witnesses, calling for a prompt, thorough and fearless investigation of the disaster of which they are the fearful relics.

Themistocles had a memory so extraordinary that he never forgot what he had once seen or heard. Thomas Cranwell, committed to memory in three months an entire translation of the Bible, as made by Erasmus. Leibnitz was called a walking dictionary. He knew all the old Greek and Latin poems by heart, and could recite the whole of Virgil, word for word, when an old man. Magliabecchi, the founder of the great library at Florence, had so wonderful a memory that Gibbon styled him "memory personified." Saunderson, a mathematician, was able to repeat all of Horace's odes, and a great part of other Latin authors. La Croze, after listening to twelve verses, in as many languages could not only repeat them in the order in which he heard them, but could also transpose them. Buffon knew all his own works by heart. Samuel Johnson retained with astonishing accuracy everything he had perused, no matter how hastily. Pope was enabled to turn with readiness to the precise place in a book where he had seen a passage that struck him. Byron could recite nearly all the poems he had ever read together with the criticisms on them. The memory of Cuvier, the naturalist, was the most wonderful one of his age. (It is said Prof. Louis Agassiz has a memory similar.) He not only retained the name of plants, animals, fishes, birds and reptiles, classified under every system of natural science, but he also remembered, in their minutest details, all the things that had been written about them in all times. Scaliger obtained so perfect an acquaintance with one Latin book, that he offered to repeat any passage, with a dagger at his breast, to be used against him if his memory failed him. Lope de Vega wrote upwards of three thousand original pieces, but not more than three hundred of them were ever printed; he could repeat nearly all of them with astonishing accuracy, by heart. The Chancellor d'Aguesseau, of France, made himself master of the Latin, Greek, Italian, Spanish, Portugese and English languages. So easily did he add a new language to his list, that he always spoke of its acquisition as an amusement. Neibuhr, the learned historian, of Rome, and son of the celebrated traveler, was one of the greatest of modern linguists. He had actually mastered nineteen languages in addition to his own.

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with ROWELL'S PATENT DOUBLE COGWHEELS, and the PATENT SPUD, are now unquestionably by far superior to any apparatus for washing clothes ever invented and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church*

"It is worth one dollar a week to any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention"—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price. Washer $14, Extra Wringer $5, and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale wanted; money fast selling them.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

TUESDAY, OCTOBER 12, 1869.

THE GOVERNOR RESPONSIBLE.

We tell the people that Gov. Holden is justly chargeable with the evils that now threaten to engulf the people of the State. He has ruined the State and he has ruined his party, and the Radicals themselves are sensible of this,—we hear them speak of it freely wherever we go.

We say, the Governor is responsible, and why? At the sacrifice of his self-respect and his honor as a public man, he consented, for the sake of office, which dishonors him, to become the wicked tool of unlawful power. He resolved to say or do anything that might give him temporary ascendency, whatever the eventual consequences might be to him and others. He cared nothing for principle or consistency; these he threw to the winds; he laughed at decency and virtue. By a course of life we dont care here to review, he secured the nomination for Governor at the hands of the "carpet-baggers" and negroes, and from the leaguers, because they could do no better. They made him their leader; indeed, he was made President of the "loil" league; he was omnipotent as the leader; he was the *oracle* and the "head man;" the party did emphatically whatever he said. We appeal to the public to say if this is not true. Yes, we appeal to the Radical party, *that was*, to say if what we have stated is not true. It *is* true, as the commonest observer in this State, for the last two years, knows.

Well, what has this man, possessed of such power, by such means, done? Just look at his Judiciary. See it, and mark it! It is at once, weak; for the most part ignorant; incompetent, and, in some cases, corrupt. Taken as a whole, it is a mockery, and does not command the respect even of Radicals, white or black. The Governor knows this as well as we do. Now, what could he have done, as to the Judiciary? Why, at a word from him, men eminent for their learning and purity of character could have been nominated for any judicial position, and elected. The Governor knows this.—But his friends (?) say that such men of his party he could not get! Ah! Therefore, he would take dirty tools, and bad and corrupt men. But this will not do, there were plenty of men who were not politicians, eminent for judicial learning and virtue; why did he not say, "vote for these men; we will elect them; they will serve the State; let the people see that we care for the public good." He could have done so, and such men would have been elected. But he did not do it, because he is not made in the mold of a good man and a patriot. He is little and mean, and can't do what is even *politic* as a party movement, if it savor of propriety and promises good to the people. He is, then, responsible for these mockeries of Judges.

The same might be said of the Executive Officers. Holden knew these men; he knew Menninger, and Ashley were "carpet baggers," and he knew what such men came among us for. If he had said to the native Radicals, white and black, "let us elect substantial men of our own people," they would have done it. Now see; Ashley is Superintendent of Education; what is the result? Thousands on thousands of dollars have been spent on behalf of his office, and there is *not a single Common School in the State* for white or black. Then, there is Menninger, Secretary of State; what is the result? His office up to this time has cost the State, at the most moderate calculation, upwards of fifty thousand dollars! There is Littlefield, State Printer; a special act of the Legislature was passed, with the Governor's connivance, when no quorum was present, giving him the power to appoint a State printer, with the understanding that Littlefield was to be the man. The Governor appointed him, and what is the result? The publication of the laws has been delayed six months, and they are published at a cost, not much if any, below eighty thousand dollars! And this man will get, probably a hundred thousand dollars, as Public Printer. And Governor Holden appointed this man!

Then there is the Legislature, composed of "carpet-baggers," negroes, and a few white men, mostly Radicals, few of whom have any material interest in the State, or care for its welfare. The Governor was omnipotent with them; what did they do? They disgraced and ruined the State.—Even the rank and file of the Radicals say so, and some of the better of the leading men among them say so, and every body *knows* so. Among other things, this Legislature undertook to create a new State debt, *professedly* for the interest of railroads, but *really* in the interest of a gigantic "Ring" of swindlers, amounting to the appalling sum of nearly $27,000,000. If the Governor had said, especially to the *native* Radicals, black and white, "this is wrong in itself, and as impolitic as wrong; it will ruin our party and ruin the State;" every body knows the attempt to vote such an amount of debt would not have been made. The Governor knows it, the Radicals know it, and the people know it. Had the Governor done this, the "Ring" would not have survived a day; had he done it, the "Ring-masters" would not be to day at work in Wall Street to enrich themselves, impoverish the State and ruin its credit; had he done this, the credit of North Carolina, would to-day be nearly, if not quite, up to the old standard; and, more than this, if the Governor had so acted, the people would not, to day, be ground to powder with taxes to enrich the "Ring" and the "carpet-baggers." Governor, you know this is true, every word of it; don't you? The people know it.

Then the State is overrun with that curse of curses, "carpet baggers." They are into every office that *pays*. They are a nuisance even to the native Radicals and negroes themselves. We often hear them say so, openly. These men bring corruption and crime here that our people never heard or thought of. Of all the political blasts and blasts that ever beset any people, none surpass that of the "carpet baggers." They are emphatically the authors and promoters of crime, moral, political and social, and the Governor knows it. Who has encouraged and sustained them? Who has given them place and office, and enabled them to run over our people, white and black, Republicans and all? The Governor. But for the Governor, these moral and political lepers would this day be where they came from, begging for, or stealing their daily bread. As it is, here they are, plundering our people, mocking them with a high hand and with perfect impunity; whereas they came beggars, now they build fine houses, drive fine horses, beautiful and splendid vehicles, wear diamonds and rings of the vulgarest magnitude; live in and about the Capitol, and spend their State bonds by the hundreds. These men, too, keep up a system of prostitution and harlotry too horrible to be mentioned in these columns. They have afforded outcasts of brothels the means to parade the principal streets in splendid equippages, while genteel ladies of the city are almost afraid to be seen in the streets in their carriages and on horse back. These "carpet baggers" have done all this mischief and outrage, and ten-fold more; yet the Governor sustains them! He gives them office and place in the face of native Radicals!

Why all this? Simply because the Governor is Billy Holden!! That is enough.—Hence, we say he is responsible for all this evil. Is he not?

JUDICIAL COURTESY.

Judges on the bench always speak with impunity, no man daring to contradict or even to reply, courtesy and gentleness of speech therefore does well become them.

The people of North Carolina, before the coming of carpet-baggers, were blessed with learned, pure sober and Christian Judges, whose purity and uprightness had its proper effect upon the whole tone and tenor of public morals. The people without distinction of party, praised, honored, and loved the Judiciary. No man could go unrebuked who dared to speak evil of a Judge. "Under him the people labored, acquired and enjoyed." "Without him the people could not defend their characters or enjoy their property." We mighty here pause to inquire what has become of the love, admiration and veneration of the people, for the Judiciary. Whose fault is it that the people have ceased, not only to love and venerate, but even to admire or respect. It is the Judiciary, and not the people that have changed. We have exchanged Battle and Manly, for Settle and Dick. We have exchanged Gilliam, Warren, Fowle and Merrimon, for Jaybird Jones, Cloud, Henry, Thomas, Tourgee and Greasy Sam.

When Judges of old were inducted into office, they were aware that they had put on a robe of Justice, and they vowed a vow to God, never to spot it, and they never did. They wangled neither with the Bar, nor the Jurors of the country. They were genile and courteous to all. How does it stand to day between the Bench and the Bar of North Carolina. Let the case of the Bench, against the Bar, in the person of B. F. Moore and others answer.

The present judiciary seem to think it incumbent upon them not only to war with the bar, but to insult and offend the Jurors and Grand Jurors of the County. Judge Cloud sends word to Judge Tourgee, that he is unworthy to sit upon the Bench if he don't "put every d—m scoundrel of the Grand Jury of Orange in jail."

At the last term of Orange Court when the Jury convicted one Hanes, (col.) of larceny in breaking into a store, and stealing therefrom a pair of boots, Judge Tourgee with warmth set aside the verdict and declared there was not a particle of evidence upon which the Jury could find a verdict of guilty. The evidence was this, the Store House of Mr. James Parks, of Hillsboro', was broken into in the night time and a pair of boots taken. Mr. A. Upchurch a respectable citizen of this city testified that he bought the boots from Hanes. Hanes could not and did not show where he got them, nor did he offer to prove to the Jury that his character was good and he above suspicion. Last week at Caswell Roberson and four others were indicted for an assault upon a negro; the Jury convicted Roberson only. The Judge was displeased at the verdict and insulted the Jury by a lecture, telling them "if the complication of the parties had been different, the verdict would have been different."

He who takes upon himself the office a Judge should guard against the influences of party violence and feelings. If he is not cool, calm and courteous to jurors and to all men in Court, his ermine will be spotted and the balance of justice unpoised.—

The learned Judges of old were renowned for the tenderness and courtesy with which they treated inferior Magistrates, Jurors, Grand Jurors, and the whole people; and hence the veneration of the whole people for the learned Judges of old.

The number of threshing machines in the United States is estimated at about 220,000, and they save five per cent. more of the grain than the flail. The saving of grain by them is about 10,000,000 bushels.

For the Sentinel.

MR. EDITOR:—We have just read, with no little pleasure and a great deal of instruction, "a full report (in pamphlet form) of the proceedings in the matter of the Bench and the Bar of North Carolina."

This pamphlet contains "an account of the cause of said proceedings, the arguments of Counsel for the respondents, the opinion of the Court, and a review of that opinion."

The report is full, complete and satisfactory. Every position taken by the Bench is given; every material fact and law bearing on the trial of the cause is fairly stated; and the argument of Counsel and the opinion of the Court, together with a full review of that opinion, are deliberately spread out before the reader. There is, therefore, not the slightest difficulty in the way of the reader's coming to a right and just conclusion as to "the proceedings in the matter of the Bench and Bar of North Carolina."

The review of the opinion of the Court, we take it for granted, was drawn up by the Respondent in this action. It is calm, dignified and crushing.

The distinguished Reviewer did not need the additional testimony of this masterly effort to establish for him the enviable reputation of a very learned and able legist, or of a lover of law and order and of the incorruptibility of Courts. But if such evidence were necessary—such a coping stone required—to complete this monument, to his fame, then has he ably supplied this necessary evidence, and happily succeeded in elevating to its place and adjusting in position this required coping stone, in this Review of the Court's opinion, in the matter of the Bench and Bar.

The contrast between the spirit, and tone and temper of the two performances—we mean the opinion of the Court and the review of that opinion—is certainly striking and peculiar. It reminds us of what has been said of two very remarkable and distinguished characters in English history, Lord Coke and Mr. Burke.

Of the great commentator on the laws of England, and equally great tyrant, Coke, it was said, that he was subservient to his masters, haughty to his equals, and domineering over those beneath him. Of the great statesman, orator, scholar and philanthropist, Burke, it was said, that "he was too fond of the right to pursue the expedient."

We shall not stop here to make comparisons or to run parallels between the great commentator and our *petit* judge. Whoever will undertake it, however, will have no difficulty in finding some *little resemblances*. But this much we will venture to express, that we fear the well known line that Goldsmith wrote of Burke, that "he was too fond of the right to pursue the expedient," would be inappropriately applied to the author of the opinion. Or, if applicable at all, that it at least would be, at the time of his framing this judgment of the Court, in an inverse sense, namely, that "the right" did not stand in the way of "the expedient."

We maintain that this conclusion is fully warranted by the facts of this case, and from the law and the testimony. For if there ever was a case, calling for a summary process of dismissal from further consideration, after the Respondent had, under oath entered his disclaimer of any such purpose and intention as was charged against him in the rule, it was the case before us.

But if the fact of *not guilty* was not there most completely and fully made out, it certainly had been done according to law when the arguments of counsel closed.—There was not there, nor could there be, any proper grounds of difference between the judges and the respondent, the former as a court of law, and the latter as a practising attorney of that Court.

Every allegation in the rule of the Court, had been fully met and refuted, by the invited and admitted, and therefore competent testimony of the respondent under oath. But if that was insufficient to satisfy their honors, then it should not have been overlooked by the Court, that it had been conclusively shown, in the arguments of counsel, that the order of the Court, as a rule of law, was totally inoperative in this case.

In the first instance, justice, magnimity, and courtesy required that the judges should have dismissed their rule. In the second instance, law, common sense, and decency demanded it.

But that would not do for the judges; that would not answer their purpose; would not obtain the end they had in view, when they set out on this business. That purpose, that end was, to use the language of at least one of these judges, to push the lawyers to the wall, and to suppress in future the publication in the newspapers, of all offensive strictures and censures on the judges.

So the judges went on with their work; decided the case contrary to the law and the testimony; and actally delivered an opinion framed and fashioned outside of their own rule and contrary to all laws, common and statute, bearing on the facts of the case.

The concluding paragraph of this opinion is a fitting termination to such a judgment from the court! Here it is: *The motion to discharge the rule is allowed, on payment of costs, a case having, in the judgment of the court, been made against the respondent as to call for a disavowal on his part. It is proper that he should pay the costs. He is not acquitted, but excused.*"

That is the finishing touch, given by themselves, to a picture of the highest lawjudges in North Carolina, holding equally the balances of justice between themselves and others! They seem to have entirely forgotten that they were accuser, prosecutor and judge; and that they trumped up the charges from newspapers; made up the case themselves, and then ordered, yes ordered, the Respondent to come forward in open court, after having been suspended from his rights in the court, as an attorney, for several days, and purge himself, if he could, under oath. *O tempora! O mores!*

We have already said, that we read this report of proceedings in the case of the Bench and Bar of North Carolina with pleasure and instruction. That is strictly true. For we were *gratified* to learn that the doctrine of the common law was on one side—*we mean the side of the people; for in this case, the cause of the Bar, is the side of the people.*

We felt assured that, in this country at least, authority and the highest sanctions of law ought to be on the side of the doctrine of freedom of speech and liberty of the press, a doctrine that has its foundations in reason, truth and justice; and we were pleased to discover by this report, that it had been made perfectly apparent to all inquirers into this matter, that such is actually the case.

We can trace the origin of the contrary doctrine, the one held by our Court, to the arbitrary precedents introduced by the Star Chamber Court—a Court without a jury, and not only without a jury, but in which the Court was actually prosecutor, judge and jury, which was precisely the case, in this instance.

But we are happy to know that the common law is on our side. It it was not, however, we should not be bound by its dictates. The statutes of the Legislature, which has superceded the common law in all cases coming within the meaning of the statutes, have thrown forward their protecting shields to save us from the arbitrary precedents and tyrannical ruling of the Courts, and to secure to the people freedom of speech and liberty of the press.

It is essential to the very existence of liberty, that the press should be free. This is necessary in order that every question of public interest, whether it relates to the qualifications of candidates for office, the measures of parties or the measures of government; the Constitutionality of laws; their mode of administration; the decisions of the Courts and Judges under the laws; and that all other subjects relating to the public management of affairs, should be fully and freely canvassed, under those limitations and restrictions only which truth and honesty impose.

This is especially necessary in a country where the people govern themselves by laws of their own appointment; when ignorance of the law excuses no man; and where all *public officers* are responsible to the people for their *conduct*, and removable from office for *misconduct*.

Error of opinion may be always tolerated when reason is left free to combat it. But a press that is not free to utter truth in respect to matters of public interest, has no freedom and no power, and is besides utterly contemptible.

The proper basis of our government being the opinion of the people, the very first object of every enlightened, patriotic mind should be to keep that right; and the chief and almost the only means of doing this, are freedom of speech and the liberty of the press.

We sincerely hope this Report will be very generally read. It will not only teach the people and the public press of the country, that they cannot be incontinently gagged by the Courts, but it will teach the Courts, that they are in their jurisdiction, restrained by law within safe and proper limits.

We do not expect to see another Star Chamber proceeding in our Courts. They have learned their lesson, and will, in future, it is believed, respect the laws, and conduct themselves properly.

SCHOOL BOOKS.

UNIFORM SYSTEM OF

TEXT-BOOKS

FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction,
RALEIGH, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of Mr. Alfred Williams, for the following books, which were adopted Aug. 9th, 1869, by the State Board of North Carolina for uniform use in the Public Schools:

PARKER & WATSON'S NATIONAL PRIMER.
PARKER & WATSON'S NATIONAL SPELLERS.
PARKER & WATSON'S NATIONAL READERS.
DAVIES' ARITHMETICS.
MONTEITH & MCNALLY'S GEOGRAPHIES.
MONTEITH'S YOUTH'S HISTORY OF THE U. S.
BEEB'S SYSTEM OF PENMANSHIP.

THE NEW DESCRIPTIVE GEOGRAPHY OF NORTH CAROLINA will be ready about the middle of October, prox. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

PROF. JEROME ALLEN'S COMPLETE SYSTEM OF MAP DRAWING will also be furnished to the Public Schools with Monteith & McNally's Series, without extra charge.

The books will be supplied at exceedingly low rates to the Public Schools in the state.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in accordance with the State contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by ALFRED WILLIAMS,
Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with

C. W. LAMBETH,
Agent for the Publishers
and Sup't of Introduction.

From Dr. WM. B. HARRELL, Prin. High School, Snow Hill, N. C.:

SNOW HILL, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no others when these could be obtained.

From Rev. ALBERT SMEDES, D. D., Rector of St. Mary's School, Raleigh, N. C.

RALEIGH, N. C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable. ALBERT SMEDES.

From J. W. GULICK, A. M., Prin. Male Academy, Goldsboro', N. C.:

GOLDSBORO', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Ganot in particular.

J. W. GULICK.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. CLOSS, Prin. Durham Academy, N. C.:

DURHAM, N. C.

I design introducing the present session, McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition. M. CLOSS.

From M. L. LITTLE, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.

NEWTON, N. C.

Will introduce the University Arithmetic next term. Have examined it with much satisfaction. An admirable work. M. L. LITTLE,
Prin Pleasant Hill Seminary.

From Rev. S. IVEY, Prin. Auburn Academy, N. C.:

AUBURN, N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school.

STINCEON IVEY.

Prof. WM. A. OBERCHAIN, writing from Hillsboro' Military Academy, says:

"The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. DUGGER, Esq., Prin. Male Academy, Warrenton, N. C.

WARRENTON N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Ganot's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation. J. E. DUGGER.

From W. C. KERR, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.

MT. PLEASANT, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much acceptance. G. D. BERNHEIM.

From Prof. JOS. H. FOY, President Stantonsburg Scientific High School, N. C.

WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the "National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——— which stands next best on the list

McNally's, the fifth book of the course, is decidedly the *chef d'oeuvre* of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit. J. H. FOY.

From the Statesville, N. C. *American*, February 20th, 1866.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now having large editions of these Standard School Books for the Southern States. The series consists of the National Primer, or Word Builder, National Elementary Speller. The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.

From the Raleigh *Daily Progress*, Feb 20, 1866.

NATIONAL SECOND READER.—We have never examined a volume of its class which we could commend more cordially to parents and teachers.

From the N. C. *Presbyterian*, March 7, 1866.

NATIONAL FIRST READER. We recommend it to all who desire a valuable book of instruction for beginners.

From the Wilmington, N. C. *Daily Herald*, 1866

The National Series has attained probably a higher reputation than any other complete series of School Books now in existence.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses. It requires** professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice**, adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distances, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully
F. J HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully command them to those who may be in need of glasses.

W. H McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved. DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

J. M. ATKINSON,
Pastor of the Presbyterian Church.

State of North Carolina,
EXECUTIVE DEPARTMENT,
Raleigh, March 28, 1866.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public. JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1866.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.

Prof. MORRIS BERNHARDT, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision. THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

W. E. BOWLING, M. D.

Testimonials similar to the above may be seen at Dr. Bernhardt's office, from the most reliable and well-known gentlemen of the United States, among whom are:

HORATIO SEYMOUR, Governor of New York.

Articles in the Stationery line, by J. A. Jones.

See the new advertisement of Pepper & O'Connor; if they continue to send good things to this office, as they did yesterday, we shall be under the necessity of speaking out in regard to the matter frequently. Read the advertisement.

THE ALLMAN TRIAL.—The Jury in this case were out until yesterday, (Monday) evening, and failed to agree on a verdict. We understand the Jury stood 9 for manslaughter and 3 for acquittal. Late yesterday the Judge had them called in, when the prisoner not being present in person or by counsel, a Juror was withdrawn and a mistrial entered.

We learn that the prisoner's counsel will move for his final discharge this morning, on the ground that he cannot be tried a second time for the same offense. In case of the Court's refusal to grant the motion, an appeal to the Supreme Court will be taken, where, we are warranted by precedent to conclude, the motion will be sustained.

NEW HATS.—Tucker has hats of the very latest style, and as cheap as they are elegant. Tuckers' fine store and stock of elegant goods, would do credit to a city of a hundred thousand.

SKIFF AND GAYLORD'S MINSTRELS.—This Troupe gave a highly entertaining Concert at Tucker Hall, last night to a crowded audience. From notices of their performances at other points, the public had been led to anticipate the enjoyment of something beyond the ordinary, and we believe none who were present felt disappointed in this respect. The lateness of the hour prevents us giving a lengthened notice of the performance, it is sufficient to say that all present were highly delighted, and we have no doubt another large audience will greet them to-night.

Our Cashier has just been presented by A. Creech, with a beautiful and stylish hat for which he wishes to return his thanks.

He says that Creech keeps one of the best stocks and that all who need new and stylish hats should go to him.

The following delegates have been appointed by the Central Agricultural fair to attend the State fair at Raleigh, Peter R. Davis, Dr. W. T. Cheatham, Geo. B. Harris, W. W. Jones, Jno. E. Clarke, and Dr. W. W. Young.

1870.—We are indebted to Mr. Jesse A. Jones, Bookseller, Fayetteville street, for a copy of his "North Carolina Agricultural Almanac," for 1870. It contains the usual astronomical calculations, and a great deal of useful information for the farmer and gardner. Mr. Jones is ready to fill orders at wholesale.

We give to day an able article from the pen of "Civis" on the Review of the Supreme Court opinion in the celebrated contempt case. The "Review" is printed in pamphlet form, and will, we presume, be considered conclusive on the questions involved in the case referred to. It is our purpose to publish this Review as soon as we can; at present the crowded state of our columns renders it impracticable.

THE "PEELER" COTTON.—Dr. O. L. Ellis has sent us a sample of the "Peeler" cotton raised on his farm in Franklin county, the seed of which he procured from Vicksburg last winter. This sample has very long staple and the fibre is much finer and silkier than our common cotton, the yield to the acre being about the same.

The "Peeler" cotton is considered in the market as next in quality to the "Sea Island," and sold, last year, for about fifteen cents per pound more than middling uplands, the difference being sufficient to pay the expense of cultivation.

Dr. Ellis, in a note accompanying the sample, says he will have 50 pounds of the cotton in the seed at our State Fair, to contend for the premium for "best 50 pounds seed cotton."

The Doctor further says, "I would also contest for one or more premiums on fine stock, but the premiums offered are too small for the amount of trouble and risk." With all due respect, Doctor, we think you take a wrong view of the matter. We should always have poor Fairs, if the amount of premiums offered were the inducement to exhibition. We cannot allude to the mutual advantages that accrue to all participants in these industrial exhibitions, in a short paragraph like this; they will no doubt occur to you on a little reflection, and we hope you will reconsider the matter and bring your fine stock to the Fair.

We have heard of others who entertain the same objection to exhibit, who, we hope, will consider better of the matter by next week.

Sales of Cotton in Charlotte last week amounted to 388 bales.

Monday Evening Dispatches.

WASHINGTON.

WASHINGTON, Oct. 11.—Departments and Banks are closed to-day.

St. Thomas had earthquakes on the 17th of September almost equal to those of 1867.

The Yerger case will be heard on Friday as to the question of jurisdiction.

The Brown case from Texas, is to abide the decision of the Yerger case.

Judge Fisher, in the Schureman case, sustains the motion for arrest of judgement on account of a defective indictment. There are three other counts upon which Schureman is to be tried.—Schureman is connected with stealing notes from the Treasury, forging signatures and altering them. Turner the negro Postmaster at Macon, Georgia, is implicated in the case.

FOREIGN.

LONDON, Oct. 11.—Martin, the Fenian, died at Kings College Hospital. Thousands attended the funeral; the mourners wore green scarfs.

Four hundred people met at Notting Hill, in favor of the extension of the Fenian amnesty; speeches were inflammatory, but the meeting was orderly.

VIENNA, Oct. 11.—The Emperor Francis Joseph joins the Empress Eugenie at Constantinople October 24th, when accompanied by the Sultan, the party will proceed to Suez via Jaffa and Jerusalem. The French, Austrian and Turkish fleets will convey the party.

MARKETS.

NEW YORK, Oct. 11.—Market strong on Vanderbilt stocks, steady and firm on the balance; Money 5 to 7; Sterling 9; short 9½; Gold 39½; 62's 20½; Tenn's, ex-coupon, 61½; new 56; Va's, ex-coupons, 61½; new 58½; La's, old, 70; new 64; Levees 64½; 8's 84½; Ga. 7's 90; N. C's, old, 49½, new 43; S. C's, new 65.

Monday Midnight Dispatches.

WASHINGTON.

WASHINGTON, Oct. 11.—The Court of Claims met and adjourned without doing any business, in respect to ex-President Pierce.

Farragut is getting well. The President thinks the purchase of St. Thomas would be a bad investment.

A large number of cotton cases are on the present docket of the U. S. Supreme Court, taken upon appeal from the Court of Claims; other similar cases left on the Court of Claims docket, which the Attorney General will endeavor to pass upon to the Supreme Court, in order that these before both Courts may be settled. These cases grow of captured cotton, the proceeds of which went into the U. S. Treasury.

Boutwell is still absent. Gen. McClellan will stay at the Metropolitan during the winter.

Hon. Jacob Thompson of Miss. is here.

KENTUCKY.

LOUISVILLE, Oct. 11.—One hundred and forty-three delegates to the Commercial Convention have registered, they are mostly from the South. Millard Fillmore held a reception to-day at the Court House.

RICHMOND.

RICHMOND, Oct. 11.—Gen. Canby issued an order to-day, postponing, until after the admission of the State, the appointment of State proxies in Railroads.

This order will likely leave all the Railroad organizations as they are at present, until the permanent State Government goes into effect.

FROM CANADA.

TORONTO, Oct. 11.—Volunteers throughout the country are ordered to hold themselves in readiness for immediate service. The government apprehends another Fenian raid.

WILMINGTON.

WILMINGTON, Oct. 11.—The case of the "Cuba" was opened this morning by G. P. Lowrey of New York, who appeared with Gen. Davis, late Attorney General of the Confederate States, and Judge O. P. Meares of this city, for the Republic of Cuba, by reading the commission of Commodore Higgins, as an officer of the Cuban Navy and also, a formal protest by him against the excess of jurisdiction by the civil courts over his ship, she being a public ship of war of a recognized nation. After stating the character of the vessel, Commodore Higgins solemnly protests in the name and for the honor of Cuba, against any detention or interfere with his ship. The conclusion of the protest is as follows:

"And now, having, for the dignity and honor of the Republic of Cuba, made this protest against the exercise of a jurisdiction over public ships unknown among nations, and being willing and desirous to have the truth known to all nations, persons, and particularly the citizens of the U. S. and do declare that the said vessel has not in any of her preparations, offended against the neutrality laws of the United States of America, in the manner charged or in any other manner, and I aver that said vessel is now in the same condition, in every respect as when she was purchased from the government of the United States, in June 1869, except a few immaterial alterations, not relating to her charroter or use as a war vessel and except further, that the said vessel, since the said purchase and while without the limits of the U. S. and more than twenty days after the departure therefrom, and we had acquired a British port and had been there seized by the public authorities.

examined and discharged, and had cleared therefrom; and then, and not till then, was she sold and delivered to the Republic of Cuba, and was fitted out and armed upon the high seas, and beyond the jurisdiction of the United States, and of all other nations; that all the proceedings aforesaid of the rights and dignity of the U. S., were conducted in a careful and true respect therefor, and under the sanction of well established principles of public laws.

[Signed] EDWARD HIGGINS,
Commodore of the Cuban Navy.
Commander Cuban steamship "Cuba."

In order to allow the government to produce witnesses, the U. S. Commissioner, Rutherford, continued the case till Saturday next 10½ o'clock.

THE UTLEY
COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 300 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are assured that as between this and the 7 other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

Special Notices.

Be Beautiful. If you desire beauty you should use Hagan's Magnolia Balm.

It gives a soft, satin-like texture to the Complexion, removes Roughness, Redness, Blotches, Sunburn, Tan, &c., and adds a tinge of Pearly Bloom to the plainest features. It brings the Bloom of Youth to the fading cheek and changes the rustic Country Girl into a Fashionable City Belle.

In the use of the Magnolia Balm lies the true secret of Beauty. No lady need complain of her Complexion who will invest 75 cents in this delightful article.

A Card.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*,

Address, JOSEPH T. INMAN,
Station D., Bible House,

A Neglected Cough or Sore Throat, which might be checked by a simple remedy, like "*Brown's Bronchial Troches*," if allowed to progress, may terminate seriously. For Bronchitis, Asthma, Catarrh, and Consumptive Coughs, "THE TROCHES" are used with advantage, giving oftentimes, immediate relief. Singers and public speakers will find them also excellent to clear the voice and render articulation wonderfully easy.

THE LEADING COMPANY IN NORTH CAROLINA IS

THE ÆTNA LIFE,

OF HARTFORD.

JULY 1ST, 1869.

Amount of Assets $12,000,000.00.

DIVISIBLE SURPLUS $2,675,999.48,
AND CONSTANTLY INCREASING.

ALL THE SURPLUS OF THE COMPANY DIVIDED AMONG THE ASSURED.

DIVIDENDS DECLARED AND PAID ANNUALLY ON THE CONTRIBUTION PLAN.

ALL POLICIES (AFTER TWO FULL PAYMENTS) NON-FORFEITABLE, AND SO EXPRESSED ON EACH POLICY.

No Restrictions as to Residence and Travel in the United States.

RATES LOWER THAN ANY OTHER COMPANY THAT PAYS DIVIDENDS TO POLICY-HOLDERS.

IT ISSUES ALL THE VARIOUS FORMS OF LIFE AND ENDOWMENT POLICIES.

LOSSES PAID PROMPTLY IN CASH.

LIST OF LOSSES ACTUALLY PAID BY THE ÆTNA LIFE INS. CO., AT THE BRANCH OFFICE, IN RALEIGH, BY THE HANDS OF W. H. CROW, GENERAL MANAGER OF THE STATE AND PART OF VA.

"	22,304	15,00

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,84
EQUITABLE,	17,44
NORTH AMERICA,	21,16
BROOKLYN,	21,09
UNIVERSAL,	27,34
JOHN HANCOCK,	18,27
THE NATIONAL,	66,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868 than any other Company, 2350 at 168. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 528 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,337 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, accurate and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

Koskoo!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE,

has induced Dr. Lawrence to ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons who HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER, it HAS NO EQUAL,

BEING POSITIVELY, THE

Most Powerful Vegetable Alterative

YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in *roughness* of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the *Brain, Liver, Lungs*, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are afflicted with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that EFFECTUALLY *stimulates* and CORRECTS the *hepatic secretions* and FUNCTIONAL DERANGEMENTS of the LIVER, without debilitating the system. While it acts FREELY upon the Liver instead of copious PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or pale color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the IMPORTANCE of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a fixture of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, [mental and physical] are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows: A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Imbecility, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.

WHY IS IT BEST TO INSURE
IN THE

BROOKLYN LIFE?

BECAUSE,

AMONG OTHER REASONS, IT IS THE ONLY COMPANY IN THE UNITED STATES WHICH PRESENTS THE GREAT FEATURE OF GUARANTEEING DEFINITE

CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

ALL POLICIES

Are non-forfeitable after two full Annual Premiums have been paid.

The policy-holders of this Company may travel or reside where they choose—anywhere on the Globe.

The BROOKLYN LIFE has paid, and now pays to its policy-holders, LARGER DIVIDENDS than ever before paid by a Life Insurance Company.

DIVIDENDS ARE PAID IN CASH,

or applied to the permanent increase of the policy, or left with the Company to accumulate at interest, in either way, at the option of the policy-holder.

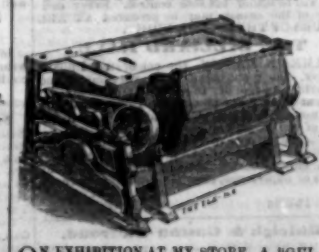
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.

I am Agent for its sale and would be pleased to fill orders.
